

April 10, 2020

To Our Community,

First I would like to thank everyone for their diligent efforts in keeping our community safe. I would like to take this opportunity to encourage everyone to support our local businesses and limit contact with our neighbouring centres. With the new cases being reported in Strathmore, High River and Brooks it appears the threat is drawing nearer. By limiting unnecessary travel to larger centres we can lessen the effects of the COVID -19 virus on our community both physically and economically.

We are fortunate that our Grocery store can still supply us with food, our restaurant is able to continue take out services, our post office is still able to get deliveries through to us and our local hotel can still support off sales.

I would like to add a thanks to Wendy, Colleen, Amanda and Leah on the continuing work in the Village Office, Post Office and with our Government Partners to keep up to date on current activities and events. Thank you to Gerald and Michele for continuing to provide an ample supply of clean water. Also a special Thank you to our Fire Dept, First Responders and all the Emergency Management Volunteers.

I would like to add continued get well wishes to Don and Denise.

In closing I would ask you to please protect yourselves, our community and especially those getting our supplies to us by continuing physical distancing. Together we can get through this pandemic. I look forward to a large community gathering when it is safe to do so.

Best Regards,

Scott Schroeder  
Mayor, Village of Milo
